Acknowledgement of Receipt of Notice of Privacy Practices

I, _____ have received and reviewed the Notice of Privacy Practices.

CONSENT FOR DILATION

Dilation is a medical procedure where drops are placed into the eyes to enlarge the pupils. This allows the Doctor a much more thorough view of the retina, lens and other internal parts of the eye. It also allows the Doctor to better detect many eye diseases that can threaten your precious vision, like glaucoma, as well as detect systemic diseases as diabetes and hypertension. For this reason routine pupil dilation is both recommended and performed, and is at **no additional charge**. The dilation effects last about 4 hours for most people and affects near vision mostly. A small percentage of people feel their vision is adversely affected; sunglasses will help allow for greater comfort. **Please check one of the choices below:**

I accept dilation today Not sure I do not accept dilation today

VISUAL FIELD SCREENING TEST

Although not a part of a regular eye exam, **nearly ALL major causes of BLINDNESS in the US can be detected very early by changes in the Visual Field**. A highly advanced yet painless computerized instrument enables the Doctor to analyze the entire visual pathway that connects the eyes to the brain where we actually see. In less than 2 minutes this medical device checks for such conditions as glaucoma, macular degeneration, brain tumors, retinal disorders and some conditions associated with headaches. Visual Field testing is not included in a regular eye exam nor under vision savings plans but is highly recommended at least once in a lifetime. The cost is **just \$20.00**. **Please check one of the choices below:**

MEDICARE & VISION SAVINGS PLANS

MEDICARE: WE WELCOME MEDICARE BENEFICIARIES. Medicare does not pay for routine eye care nor does it pay for any eyeglass checks or a refraction which evaluates for eyeglass prescriptions.- the fee for this important test is **\$35.00**. When a medical eye condition is found or exists then Medicare will pay 80% of their determined allowable charge for those services, after the annual deductible is met. We will also file for you **MEDICAL INSURANCE benefits** for evaluation & treatment of medical eye conditions such as "pink eye", glaucoma, scratched eyes and foreign bodies.

VISION SAVINGS PLANS: By way of **PRIOR AUTHORIZATION** our staff will helpfully determine your co-payments and eligible benefits and/or discounts for eye examination, contact lens care and eyeglasses. These plans are designed to help significantly defray the cost of your needed total professional eye care services and are not meant to cover its full cost. Multiple discounts do not apply. Be advised that these plans do not offer benefits for both contact lenses and eyeglasses in the same eligible period.

PAYMENT DUE AT TIME OF SERVICE – THANK YOU!

Please be advised that professional fees for Doctor Services are payable separately from eyeglass and/or contact lens materials.

I hereby request that payment of authorized services through third party payors as major medical, Medicare, Medicaid, VSP, EyeMed or other vision care savings plans be made **to FLORIDA EYE DOCTORS** for any professional services performed by any eye doctor working on behalf of **FLORIDA EYE DOCTORS**. I authorize any holder of medical information about me to release to the Health Care Financing Administration and its agents any information needed to determine these benefits or the benefits payable to related services. I also understand that if my insurance coverage does not allow for payment of performed services I am ultimately responsible and will be billed and agree to pay for such services performed in good faith.

By signing below I acknowledge that I have read and understand all the information on this page.
